FACTS WORTH KNOWING!

IF YOU WANT TO BUY A FARM YOU EXAMINE the soil, the lay, the locality, the title and the price. If you want to insure your life, examine the workings of the Company before you invest.

If you examine you will

INSURE IN THE

NEW ENGLAND MUTUAL

LIFE INSURANCE COMPANY!

WHY?

BECAUSE you get your first DIVIDEND to HELP PAY YOUR SECOND PREMIUM. You do not have to wait 3 or 4 years for the distributions.

BECAUSE we have NO STOCKHOLDERS to draw from 12 to 25 per cent. on imaginary CAPITAL STOCK (personal promises to pay) amounting from $30,000 to $50,000 annually.

Because the NEW ENGLAND is a Mutual and is a Home Company in all our broad and Beautiful country; an American Institution—the first one formed on the PURELY MUTUAL plan on this Continent.

BESIDES it is the only Company offering you the protection of the Massachusetts Law.

For example: A person aged 35, insures for $1,000, pays $26 50, say on the 1st July, 1869. Were he to die on the 4th July, 1871, 2 years and 3 days after, his policy would be paid. Thus:

Pay amount Policy is	$1,000 00
Deduct two annual payments he has not paid, $26 50 each, and ...	54 62
The family would receive	945 38

No Snap Judgment here. This is what we call EQUITABLE and MUTUAL.

Five annual payments keep the Policy in force 10 years and 95 days.

Policies on which Note has been given for one-third of the Premiums.

Five payments will continue in force nearly five years after payments have ceased.

On ENDOWMENT POLICY the time is prolonged in proportion to the amount paid.

Take the statements of no solicitor for other Companies of our beneficent workings, but call and satisfy yourselves. We will be pleased at all time to communicate every information

THE

New England Mutual

Is the only Company on this Coast that offers the above advantages to Policy-Holders.

The above examples are facts that are incontrovertible, and will be proven to the satisfaction of all persons calling on our agents

Important Facts!!!

THE CAPITAL STOCK

—OF—

THE PACIFIC

MUTUAL LIFE INSURANCE CO.,

OF CALIFORNIA,

IS PAID IN,

IN GOLD COIN!!

—AND—

Cost Nothing to be INSURED!

This is Additional Security, Without Cost to the Insured, that the Capital Stock bears its own Interest!

THE PUBLIC CAN ACQUAINT ITSELF WITH the business reputation and standing of the Stockholders and Directors of the Company, and determine from that knowledge whether the affairs of the Company are likely to be honestly and fairly administered for the benefit of the Insured.

POLICIES ISSUED BY THE

PACIFIC MUTUAL

ARE NON-FORFEITABLE,

And by the Laws of California,

EXEMPT FROM EXECUTION!

The Company will at any time make AN ADVANCE of Cash on its Policies as future Dividends.

No permits or extra rates required for traveling East or in Europe

Dividends actually non-forfeitable.

Thirty days grace on the payment of all Premiums.

After two annual payments the Company will, two years after the last payment, issue other a paid up Policy for the proportion of Premiums received, or pay the equivalent in cash

The rate at which we have been sending money East for Life Assurance will amount, with interest, to at least Ten Million Dollars by January 1, 1870. This sum, enormous as it seems, is totally eclipsed by the magnitude of the interest which the Coast is losing for want of it. For instance: Its yield in the East at 6 per cent., compounded annually for ten years, is $6,955,167 27; here at 12 per cent, for four years, and 10 per cent. for six, compounded monthly, $25,090,900 62, or a difference of over eighteen millions!

With these facts in view what Company will likely pay the largest Dividend? The funds of the PACIFIC are all loaned at 1 to 1½ per cent. per month.

Of this large sum it is computed that Oregon and Washington Territory have contributed about one-fourth. This involves the sending away annually, to keep up the Premiums on Policies already issued, at least six or seven hundred thousand dollars, which if continued will soon drain the State of all its cash. If to California, it finds its way back here for our productions, a market for which we must look for there.

The applicant need not wait two or three months to know if he is accepted or rejected, but can receive his Policy in less than two weeks, and in case of death the money will be paid to his wife in as short a time.

HYGEIAN HOME

WATER CURE,

637 California Street,

Opp. St. Mary's Cathedral, bet. Kearny & Dupont Sts.,

SAN FRANCISCO.

DR. BARLOW J. SMITH

WOULD RESPECTFULLY INFORM HIS FORMER patrons, and all who desire the professional services of a Hygienic Physician, that he has just returned from the East, after an absence of four months, during which time he has visited nearly all the Water Cures in the Eastern States, and the various Hygienic Establishments of New York City, Boston and Philadelphia; and with this new experience feels more fully prepared than ever to meet all the demands that invalids may justly claim who desire to be cured by this rational form of medication.

In January last DR. SMITH purchased the extensive lot corner of Quincy and California streets, with the buildings thereon, which he has fitted up at great expense, for the accommodation of PATIENTS and BOARDERS, with a greater variety of baths for the cure of DISEASE as well as popular bathing than is to be found in any Water Cure in the United States.

HYGEIAN HOME is the only Regular Water Cure in San Francisco, and by far the most extensive and complete Hygienic Institute on the Pacific Coast.

And we offer to Ministers, Teachers, Lawyers, Miners, Merchants, Mechanics, Farmers, and all worthy persons, especially those who have tried drugs faithfully without being restored, and who are still desirous of regaining health by this rational system of medicine, the hospitalities of our Hygienic Home and Cure. Young men who have become debilitated or lost their health by excessive toil, exposure or enervating habits, contracted through ignorance of physical laws, may with us find more of the encouragement they need, and means that will restore them to health, than elsewhere in California.

There is not one man in twenty suffering from Rheumatism, Neuralgia, Gout, or Diseased Liver, Chills and Fever, Dyspepsia, Drug or Secondary Diseases, Spermatorrhœa or Seminal Weakness, Impotency or Nervous Debility, Weak or Inflamed Eyes, Bronchical and Catarrhal Affections, Disease of the Heart, Lungs, Kidneys, Constipation, Paralysis, Scrofula, Piles, Inflammation of the Bowels, Chronic and Acute Diarrhœa, Stiff Joints, Oak Poisoning, Weak Backs, Hip Disease, Salt Rheum and many other Diseases common to Men and Women, that cannot be permanently cured in from two to six weeks by Water Cure and Hygienic treatment. Not only will they get cured, but they can learn how to keep well when they go to their mountain homes, their mines, their farms, their stores, and all this for one-half what it would cost to take drugs.

Terms $20, by the single week, or $60 for four weeks, Board, Room and Treatment (in all ordinary cases)

N. B.—All suffering from cutaneous diseases are treated in separate baths, which are never used by persons bathing for cleanliness. The greatest care and neatness is observed in this respect. No contagious diseases, such as Small Pox and Ship Fever, treated in the Institution.

We have a separate Medical Department for Ladies, which is attended by a thoroughly competent woman, while the private residence of DR. SMITH, which is connected with the Home, is chiefly devoted to the accommodation of ladies desiring Hygienic medical treatment.

We have for the past ten years made the treatment of female diseases a specialty, and have treated a great number of females, both in the Institute and in their private residences in this city, Sacramento and Oakland, who were suffering from Displacements, Prolapsis Uteri, Uterine Hemorrhage, Sterility, Curvatures of the Spine, Inflammations, Congestions, and ALL NERVOUS DISEASES, together with diseases common to all

The ease and rapidity with which the varied diseases and conditions above mentioned have been overcome, especially in the vicinity of the Bay, fully warrant us in declaring that there is not one female in a hundred who is thus afflicted but that can be made well and happy in from three to six weeks by thorough Hydropathic and Hygienic treatment at our Cure. From all who have come to us and been treated, we have yet to learn a single regret from Husband or Wife of the time, means or trouble they expended in HYGIENIC MEDICATION, for they not only get well, but learn how to keep well.

Terms for Ladies, $20 a week, or $100 for six weeks (Board, Room and treatment)

DR. SMITH gives FREE Lectures to his patients every Wednesday evening, and also Lectures before the Ladies' Hygienic Society the first Wednesday in each month.

HIRAM SMITH'S

Ophthalmic Panacea!

IS WITHOUT DOUBT THE MOST WONDERFUL EYE HEALER that has yet been discovered.

It CURES the most stubborn and hopeless cases of CHRONIC INFLAMMATIONS, GRANULATED LIDS, FILMS &c. as has been sufficiently demonstrated during the few months in which it has been brought into public notice. The proprietor is so fully convinced of its INFALIBILITY that he WARRANTS A CURE OR REFUNDS THE MONEY. It can do the eyes no harm, and a trial of it is therefore without injury or expense to the patient if a cure is not effected.

It has cured cases of FIVE, SIX, NINE, FIFTEEN, and even EIGHTEEN YEARS' standing in Harrisburg, Linn county, Oregon and its vicinity, to which the following persons will bear witness.

E. B. MOORE, NATHANIEL BELL,
A. L. WALLACE, G. R. WARD,
Mrs. MONTGOMERY, JOHN M. HOLLOWAY,
W. D. PORTER, ROBT RAMSEY,

And others in that vicinity

Persons afflicted with the distressing scourge of diseased eyes are advised to give this remedy a fair trial on the

ıe Daily Oregonian.

the new and growing States of our
n there is hardly one, except Oregon,
h has not taken especial pains to make

of attracting settlers who may be seek-
new and desirable homes. Even many of
older States, which seem to us who in-
a sparsely settled region to be already
lensly populated, are putting forth every
t to obtain still further accessions to their
ulation. A number of the States have
ncies in New York which have for their
pose the holding out of inducements to
igrants arriving in the city, to settle in
r respective sections. The heretofore

ral of these agencies in that city repre-
ing different sections of that State, and
also has her agents in Europe. In fact
Southern and Central States are now vie-

effort to remove this disadvantage. A

We hope our Democratic brethren who read
dispatches relative to the Virginia elec-
will not try to prop up their enthusiasm,
at they will join with their "Conservative"
ends of both colors in shouting for the vic-
ry. The picture presented at Richmond is
e in which they ought to take a lively in-
[illegible] The whole Democratic element of the
d Dominion, including, of course, all the
st families, voted for Walker. Hand in
nd with them went a large proportion of
groes; the black and the white "Conserva-
es" alike contending for a common cause.
many counties negro members are elected
the Legislature on the "Conservative"
ket, and by Democratic voters. At the ju-
lee in Richmond a scene is presented which
gives Democrats no doubt will gaze long
d fondly upon. The motto of the victorious
ty, "Conservatives" with whom the Democracy
ted *en masse*, is a transparency consisting
a white and black man shaking hands; and
e first families and the blacks all mingle to-
ther in the streets shouting for the "Con-
rvative" victory. Is this the war of races
out which so many fearful predictions have
en made? The Virginia Democracy, it ap-
ars, are not greatly frightened about "nig-
r equality." We commend these scenes to
r Democratic brethren in Oregon for a spe-
l and profound study.

Reduction of Fares.

The fares on all our lines of travel are
ing reduced to correspond with the progress
the times. This reduction of fares is an
cellent evidence that we are becoming a
ter people. There is more travel, and the
es are therefore becoming correspondingly
wer. In adopting this course the proprie-
rs of our lines of travel show that they un-
rstand the true policy for the times. Fares
every direction have been largely reduced
is summer. The Oregon and California
age Company have greatly reduced their
es; a similar reduction has been effected
the Columbia river and Idaho route to the
st; fares on the Wallamet river have been
adually diminished until they now stand at
ry reasonable rates, and to-day in our ad-
tising columns the O. S. N. Co. give notice
a large reduction of fares on the lower
lumbia river. The advantages of cheap
travel cannot be overestimated. At the re-
duced rates travel will no doubt be largely in-
creased, and our carriers will find their com-
pensation in the large additional travel which
will result from the liberal policy they have
adopted.

In General.

Vic. Trevitt has been appointed agent to
sell the Government buildings at Camp Wat-
son. It has long been observed that this mil-
itary department is wholly in Democratic
hands; but it seems singular that decent, re-
spectable and honorable Democrats should
not be preferred to men who are utterly with-
out character or standing in the community.

The San Francisco *Bulletin* says that a class
of small steamers should be obtained for the
coal trade of this coast. Sometimes a sailing
vessel is several weeks in making Coos Bay
from San Francisco. Steam screw colliers
would make four trips where the sailing vessel
makes one. Last summer we pointed out the
advantage which screw steamers would have
over sailing vessels for this trade.

J. R. Watson, editor of the Olympia *Re-
publican*, died at eight o'clock on Thursday
evening at Olympia. He was a writer of con-
siderable ability and for several years has
borne quite a prominent part in the political
affairs of the Territory. He was one of
those active and unflinching Republicans
whose energy and ability have kept the Re-
publican party in Washington Territory in
the ascendant, and his loss will be deeply felt.

The Sacramento *Bee* talks very plainly on
the labor question. It says that the greater
part of the hubbub made against the Chinam-
men and Chinese immigration, has been by a
class calling themselves "working men." If
more work is not done, and less loafing about
groceries and discussion of this question, we
fear the "poor workingmen" will starve to
death. Any white man who is sober and in-
dustrious can always have a chance to earn an
honest livelihood; but were we looking in the
market for laborers, we would hesitate about
employing men who choose street corners and
ward meetings to honest labor and their
homes.

The *Herald* has a long article against the
petition of ex-Marshal Hoyt for relief. This
case is every way more worthy than that of
ex-Marshal Lappeus to whom the late Demo-
cratic Council granted the relief asked for.
Nevertheless we hope the present Council
will not grant the claim now before them.
That of Mr. Lappeus was granted without
adequate reason and simply because he was a
partisan favorite with the late Council; and it
should not be followed as a precedent in any
case. The government of the city should be
administered in the interest of the people and
not in the exclusive interest of party, as was
the case when the Democrats had control.

Pollard, in his secret history of the Confed-
eracy, says that the rebels relied much upon
Northern Democratic leaders with whom they
were always in communication. His dis-
closures are minute and specific. They will
hardly surprise Republicans; they cannot
much astonish Democrats. Made as they are
by one intimately connected with the Confed-
erate Government *during the rebellion, they*
assume an authoritative shape, and crystalize
the charges time and again made against the
Democratic party to like effect, but met defi-
antly by its leaders and contradicted. Had it
not been for the secret and open treachery of
that political organization during the war, the
conflict would have been drawn to a close
much earlier, and thousands of lives and mil-
lions of money been saved on both sides.

A book has been recently published on
"American Interests in Asia," by Captain
Moreno, in which are presented some striking
arguments in favor of the establishment of an
American naval station somewhere in the
North Pacific. He shows that, had we pos-
sessed such a station during the war, the re-
port of rebel depredations in the Pacific
ocean would have been bery different. He
remarks that the *Alabama* did not effect so
much harm to the North American trade by
the loss of those sunk, as by preventing hun-
dreds of vessels from getting cargo, that hap-
pened then to be at Ceylon, Bombay, Calcut-
ta, Akiab, Bassein, Rangoon, Moulmain,
Singapore, Batavia, Bangkok, (Siam,) Sal-
gon, Canton, Hong Kong, Amoy, Ningpo and
Shanghae. Many magnificent vessels under
the American flag were thus without work,
and many were obliged to be sold at ruin-
ous prices because no employment could be
found.

POLICY OF ABUSING REPRESENTIVES.—There is
much good sense manifested in the following ex-
tract from a communication published in the San
Francisco *Herald*:

Republican papers have a peculiar method of
treating their representative men. Their object
seems not to build up a reputation for their
friends, but to destroy what little character and
standing they may have with the people. The
Democracy understands politics better; for, in-
stead of cavilling at the actions of their exponents,
they praise all that is in them of good, and keep
silent on their shortcomings; out of very ordi-
nary materials they manage to fabricate distin-
guished statesmen, and by keeping their better
qualities constantly before the masses, in a short
time they are made to believe that they have got
another Webster, where they only expected a
second-rate Senator or Congressman. Newspapers
can easily make or mar a reputation, and the
Union press of San Francisco can truly boast that
they have destroyed more embryo statesmen than
any other papers in the country. The *Bulletin*
has always enjoyed a prominence in this dastardly
business, but the *Times*, which pretends to be the
organ, *par excellence*, of the Republican party, is
fully as bloodthirsty on Cole, as its more able
and vindictive evening cotemporary. So long as
Republican papers continue to abuse their repre-
sentatives, just so long will they defeat the ends
they have in view; the people will come to the
conclusion, after awhile, that there is no honesty
in an organization which has such rascally expo-
nents.

The Union press of this city seems to have some
spite against Mr Cole. Is it in the interest of
Sargent, Gorham, Stewart & Co. Would it
bring down the Senator in order to build up our
Congressman? What has Sargent ever done for
San Francisco that Cole should be sacrificed in
order that he may be made Senator? That seems
to be the programme at present, and all the curs
of the Republican party are barking at the heels
of Mr. Cole. They abused Conness until they
made his name so obnoxious to the Union party
that it suffered an inglorious defeat two years
ago, rather than he should be re-elected Senator.
They are trying to play the same game now with
Cole, and may be equally as successful two years
hence. Newspapers that are constantly defacing
their own partizans are certainly no advantage to
a political organization, and it is to be hoped that
the Republican party of California will soon es-
tablish a paper that will advocate its measures
and vindicate its public men.

FINAL GLEANINGS FROM THE JUBILEE.—An ap-
proximate estimate of the number of passengers
brought into Boston during Jubilee week, made
by the officers of the different roads, is as follows:
Eastern, 67,900. Boston and Albany, 50,000.
Boston and Main, 49,520. Boston and Provi-
dence, 32,500; Boston and Lowell, 46 225. Fitch-
burg, 44,000; Hartford and Erie, 30,000. Old
Colony, 45,000. total, 400,845. The Metropoli-
tan horse railroad company carried 400,000 pas-
sengers in five days.—Mayor Shurtleff dismissed
the city police from the Coliseum, Saturday, and
made a little speech in which he assured Chief
Kurtz that he should always stand by him, whether
the Legislature investigated his character or not
—The receipts for the entertainments at the Jubi-
lee were fully $300,000. The Coliseum is to re-
main standing until December. The exact num-
ber of the Jubilee chorus was 10 528.

When a man who is involved commits suicide,
and thus pays only "the debt of nature," does he
make nature a preferred creditor?

Curran was once asked by one of his fellow
judges, "Do you see anything ridiculous in his
wig?" "Nothing but the head," he replied.

King James I was once asked by his courtiers
to make Archy a gentleman. "Nay, nay, sirs,"
I'll make him a Christian if you will, but it is out
my power to make him a gentleman," was the re-
ply of the British Solomon.

"Sir," said a burly fellow, "I have the largest
neck of any man in the city." "Very likely,"
said his neighbor, "and I saw yesterday the
largest rope in the city. Now, put that and that
together, and we'll see how tall you are."

A story is told of two Yorkshire tykes who
traveled together three days in a stage coach
without ever a word passing between them. On
the fourth day one of them ventured to remark
that *it was a fine morning.* "And *who said it*
wasn't?" was the reply.

The Caspian Sea is dotted with islands from
which enormous quantities of naphtha are yearly
taken. Early last month, owing to subterranean
disturbances, the naphtha wells on these islands
overflowed, and the inflammable substance spread
over the entire surface of the lake. It accidentally
took fire, and for forty eight hours burned furi-
ously over a surface of many thousands of square
miles. The inhabitants of the surrounding coun-
try imagined the end of the world was at hand.
The fish in the lake were entirely destroyed, and
for miles around vegetation was parched and the
country made like a desert. The same phenome-
non is recorded by Herodotus.

Patrick Stephen Gilmore, the projector and con-
ductor of the Boston Peace Jubilee, was born near
Dublin, in Ireland, on Christmas, 1829. He
joined a military band at fifteen years old, as per-
cussion player, and shortly afterwards several of his
compositions for bands were published. At twen-
ty one, having emigrated to America and settled
down in Boston, he was already leader of a brass
band, and a cornet player of great proficiency.
He devised the series of mammoth Fourth of July
concerts which have been so celebrated in Boston,
and also first introduced promenade concerts in
this country. His exploit at New Orleans in cele-
brating the inauguration of a loyal Governor of
Louisiana by a grand musical festival, is well
known. In this festival 6,000 children and youths
of the public schools participated, aided by an or-
chestra of several hundred pieces and any amount
of artillery—another specialty of Gilmore. The
celebration was an entire success. Mr Gilmore
has any amount of cups and other testimonials
laid away, and it is probable that his crowning
success at Boston will add another to the number.
He is a popular composer—the songs "Good News
from Home" and "Johnny Comes Marching
Home," which everybody has sung, being from
his pen. He also wrote, for Karl Formes, a very
effective dramatic ballad entitled "The Voice of a
Departing Soul."

The Chinese Question.

From the San Francisco Commercial Herald.

The disposition to decry the Chinese and make
them objects of persecution, is not wholly con-
fined to the lower classes. While brutal ruffians
indulge their malice by inflicting personal injur-
ies, men of information and high official as well
as social status, permit themselves to become the
inciters and fomenters of such outrages, by their
bitter denunciations and doleful prognostications.
The soundness of their arguments may be gath-
ered from the extraordinary logic with which
they are enforced. The Chinese, says one of
these gentlemen, are inoffensive, remarkably in-
telligent, quick to learn, industrious, patient, and
soon acquire skill in any employment they under-
take; and from such data he draws the deduc-
tion **that they should be kept out of the country!**
We have an immense territory wholly unoccu-
pied, teeming with natural wealth, but quite un-
productive, for want of population and cheap
labor, says another, but we must resolutely refuse
to permit its occupation or allow its vast resources
to be improved by Chinese. Extensive lines
of railroads must be constructed, additional
bands of iron ways must unite the Atlantic and
Pacific, and, although the children of the
"Flowery Kingdom" have proved their remark-
able adaptability for such work, and at prices
which will enable the roads to be run at incredi-
bly low rates, yet it were better to plod along
after the manner of our forefathers than employ
Chinese on such works. We are suffering for
want of laborers, say the Southern States, for,
although our lands are fertile and extensive, our
climate superb, our resources illimitable, yet
there are no hands to harvest our crops, build our
levees, deepen our rivers, cut our canals, run our
cotton factories, or serve in our domicils, unless
we can procure Chinese operatives. But, ex-
claims the thick headed, self contradicting, anti
Mongolian of California, you know not what
you say, for the Chinese are so numerous that
they will overrun and eat you up like an over
whelming swarm of rats. They will get posses-
sion of the ballot-box and reduce you to the con-
dition of serfs.

We were about to astonish the world with an-
other grand commercial enterprise, is the an-
nouncement of hearty capitalists and far-seeing
statesmen; we will cut through the Isthmus of
Darien, and control that trade which, for four
hundred years, has been the coveted object of all
commercial nations. The work must be done
cheaply and in one of the most trying climates on
the globe. Recent events have supplied us with
the very means for the accomplishment of this
magnificent idea. They have furnished us with
the hordes of operatives necessary for its achieve-
ment, but, being Chinese, they must be repelled,
in order that the expense should be quadrupled,
and thousands of Europeans and Americans
sacrificed to please the anti-Coolies of California.
We have thrown down the wall of exclusiveness
which has hedged us in for centuries, exclaims
China; but we are just building such another, re-
plies California. We are willing and ready to till
your fields, cultivate your waste places, work
your mines, and do all sorts of service for you,
and at the cheapest possible rates. We are ready
to pay our taxes and are not always swelling for
office, plead the Chinese. Away with you, we
will compensate and drive you back whence you
came! We are afraid of you, and will not have
you among us, cry out the very people who groan
at the high prices paid for everything—the exces-
sive cost of transportation, the unrechimed mil-
lions of dollars in our less productive mines, and
the unremunerative condition of our extensively
overflowed lands. If the Chinese possess the
master intellect, they will rule; but if they be of
the excessively inferior character, with which they
are credited, what have we to fear? Has experi-
ence demonstrated that they are turbulent, over
bearing, clamorous for office, promoters of mobs
and rows, agitators of opposition to law? Has it
not shown that they are industrious, patient,
tractable, submissive, obedient to discipline and
ingenious? Is it for the possession of such quali-
ties that a "political fight" must be inaugurated
against them by the State of California. That
they have many vices is not denied, but
are their various habits so much worse than
those of other people as to make them
special objects of detestation and dread? Until
informed by high authority, we never dreamed
that the Chinese were such very superior creatures
as to excite the liveliest apprehensions for our
safety and liberties. The question of Chinese suf-
frage is merely a bit of political clap trap resort-
ed to by demagogues and partisan "whippers-
in," and is unworthy of serious consideration.

AN OLD NEGRO WOMAN RELEASED FROM SLAVERY.—A reminiscence of Southern barbarism
and defiance of law was brought to mind lately in
this city, in the person of an aged negress of 68,
named Rebecca Hale, who, for nearly seventy
years has served under a family named Coleman,
living near Lexington, Ky. Ever since the Proc-
lamation of Emancipation has the poor woman
been defrauded of her rightful liberty by
the continued baseness and decrepit of those who
impiously laid claim to her body and soul.

The woman was born on the Coleman estate,
and was, until a short time ago, held in bondage
by James Coleman. In 1820 she married George
Whale, and had two sons and two daughters.
These were separately sold "down South." Her
husband died, leaving then but one girl of twelve
years, named Alice, with the mother. In 1847
she, too, was sold into Louisiana. The Colemans
of course, sided with the rebellion at its breaking
out, and their property was confiscated. They re-
moved further inland, taking Rebecca with them,
and even when peace came, taught her that she
was still a slave. Alice followed the seventy
second Illinois from New Orleans, and finally set-
tled in Chicago, where she married David Payne,
a liberated bondman. Long search showed her
brothers in business in Ohio and Kentucky. Her
mother was at last found to be still in Kentucky,
and in bondage, and to her the daughter went,
found her drudging for the Colemans, and living
in a miserable hovel near by, in rags, with noth-
ing but a bundle of straw for a bed, the only re-
ward of her long servitude, and brought her to
Chicago, and the reunited family are now living
at No. 125 West Park street. Her son in law has,
by industry, laid up treasures on earth, and the
old lady is at last enjoying her long denied free-
dom. The other daughter is still unheard from.

BY ATLANTIC CABLE.

LONDON, July 8.—The *Times* has an article on
the Irish Church bill. It says the bill must be-
come a law this session. Parliament must destroy
Protestant supremacy and establish religious
equality in Ireland, but not attempt to set up a
rival system of establishments. If ecclesiastical
property in Ireland is to be put on a permanent
footing, we must recognize these facts and apply
such surplus as may be necessary to supply
homesteads for ministers.

A CROWD.—The Managers of the California
State Fair having appropriated $20,000 for pre-
miums and $8,000 for race purses, the *Bulletin*
remarks:

Criticism has not been wasted if the abuses
pointed out are hereafter to be removed. Still,
we must regret that so large a portion of the So-
ciety's money is to be devoted again to encourag-
ing rivalries of speed that are demonstrated to be
of little practical utility. We need improved
stock of other kinds, better agricultural imple-
ments, a more intelligent culture of new products,
etc., more than we need racing horses, the exhi-
bition and encouragement of which might safely
be left as a specialty to societies organized for
that purpose. Some day we hope there will be
men of bold and original ideas in control of the
State Agricultural Society, who will strike out a
better path and command a better success. Until
then we must be content to do all the good we can
with an agency which appears to think more of
horses than of men, and to be more anxious to
draw a crowd profitable to the tradesmen of the
capital than to promote the welfare of the leading
interest of the State.

NOTICE.

PORTLAND, OREGON, July 1, 1869.

MR S D SMITH takes this method of notifying his
friends and the Traveling Public that he has again taken
the WESTERN HOTEL, associating with him MAJ.
COOK as I will in future endeavor to keep it in First
Class style. It is their intention to commence at once
Repairing, Refitting and newly Furnishing the House
throughout, making it second to none in the State. Give
us a call and satisfy yourselves that what we say is true.

S. D. SMITH & CO.

WM. R. SEWALL and J. B. SPRENGER

Take this method of notifying their friends, the travel-
ing public, that they have disposed of their interest in
the Western Hotel, and hereafter will continue to man-
age the COSMOPOLITAN, which in the future as in the
past will always maintain its reputation as the BEST
and only FIRST CLASS Hotel in the city.

SEWALL & SPRENGER, Proprietors.

GEO. B. COOK

Would notify his friends and the traveling public,
that he has disposed of his interest in the Cosmopolitan
Hotel and proposes, with Mr S D. SMITH, to keep the
WESTERN HOTEL in better order, and set a better Ta-
ble, than is or ever has been in the Hotel he was for-
merly connected with. GEO. B. COOK.

LARGEST, BEST AND CHEAPEST!

MOORE'S RURAL NEW-YORKER,
Established in 1850, size doubled in 1869, is now
the Largest, Best and Cheapest

RURAL, LITERARY AND FAMILY WEEKLY

In the world. Sixteen five-column pages. Excels in
both Contents and Style. Employs the best Talent. Has
Seven Editors and Hundreds of Special Contributors and
Correspondents. Is finely and profusely Illustrated. A
Continental Circulation of nearly 100,000, and rapidly in-
creasing. Relies upon MERIT and is the favorite of all
who admire Ability, Variety, Taste, Spirit, Progress and
Cleanliness. Both Press and People pronounce it the

BEST WEEKLY IN AMERICA!

Moore's Rural should be taken by every intelligent
American citizen, for it is the best exponent of the pro-
gressive character of the "Universal Yankee Nation,"
and circulates in all over the Atlantic and Pacific states—
reaching the latest a week from date. The first No. of
the new Half Volume (which begins July 3), will contain,
among the rich things, a splendid full page Group of
Seven of

Gen. Grant's Famous Horses!

the best newspaper illustration of the kind ever issued in
the country. Also an Illustrated Poem entitled "JOHN
CHINAMAN AND JONATHAN," a sketch of the Fourth of July,
relating to the meeting of Occident and Orient via the
Pacific Railroad.

Moore's Rural is adapted to the whole country, East
and West, North and South. Is live, wide-awake and
progressive. Contains no gammon. Talks truthfully
and sensibly. Knows what is what and imparts reliable
information on the same subject. It is not only a supe-
rior Literary and Family Paper, but treats ably and fully
upon Rural and Domestic Affairs. Science, Art, &c. In
brief, as an exchange recently said, "MOORE'S RURAL
*is the most elegantly printed, ably edited, widely circu-
lated and heartily welcomed paper in the whole, which
now finds its way among the people.*"

TRY IT A YEAR,

and it will endorse that opinion. Only $3 a Year—

NEW TO-DAY.

NOTICE.

WE TAKE PLEASURE IN CALLING
the attention of dealers to a valua-
ble Patented Improvement in Electro Plating
Spoons and Forks, by which those parts
liable to wear become

EXTRA COAT OF SILVER!

THREE TIMES THE USUAL
THICKNESS,

(viz: on the back of the handle, heel of the
bowl and points of bowls of spoons—back
of the handle and breast and points of tines
of forks, as illustrated in cut.)

This mode of Electro-Plating greatly su-
persedes the old way of plating. The great
advantage will be readily seen, as spoons
and forks always wear through on these ex-
posed points, while the plate is yet good on
other parts of the article. This new process
will add THREE TIMES TO THE DURA-
BILITY of goods so plated.

Knives, forks and spoons stamped "1847
ROGERS BROTHERS AI XII," are Electro
Plated by the new Patented Process.

We have now been before the public since
1852, manufacturing ELECTRO-PLATED
GOODS, which have stood the most severe
tests of wear in hotels, steamers and private
families, and have given universal satisfac-
tion, supplying, as it does, all of the advan-
tages of silver in durability and beauty.
We wish to call particular attention to the
hardness and firmness of our White Metal,
which exceeds anything of the kind made in
this country. All goods plated on this
metal bear our trade mark, and the plating
is warranted THREE TIMES THE USUAL
THICKNESS.

HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER
HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.
Having examined the New Patent Shaft Coupling, invented by H. R. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used
It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.
It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

[DISPATCHES TO THE OREGONIAN]

DATES TO JULY 8.

St Louis Dispatch.

ST. LOUIS, July 8.—Information has been filed by the U. S. District Attorney against about $60,000 worth of coffee, sugar, pepper and cigars in the hands of thirty-six merchants of this city, alleged to have been fraudulently obtained from the custom house at New Orleans.

An expedition under Samuel Adams will start in boats from Breckinridge county, July 5th, and descend the Blue, Grand, and Colorado rivers through the great canyon

Indians, supposed to be the Navajos, are committing outrages along the Rio Grande.

The San Francisco Custom House.

CHICAGO, July 8.—The Committee on Ways and Means, after investigating the San Francisco Custom House, Mint, Sub Treasury and certain alleged improper transactions of the Sub Treasurer with the bank of California, report the former all right, and the charges against the latter groundless.

Washington News.

WASHINGTON, July 8.—A delegation of Boys in Blue called on the President this morning for the purpose of making arrangements for the appointment of members of that organization to positions in the Executive Department. The President said he would give the matter due deliberation.

The *Centaur*, iron-clad, is dispatched to Santiago de Cuba to inquire into the circumstances attending the execution of Speekman, and if necessary, demand prompt reparation of the Spanish authorities. Several of the heaviest iron-clads will soon be dispatched to the Cuban coast. The *Dictator* will be prepared in six or eight days and proceed thither. The *Seminole* will be ready to-morrow. Three of the vessels comprising the present squadron have been obliged to leave Cuban waters, owing to the prevalence of yellow fever. Within the next two weeks, twenty vessels will be available for service in that direction and elsewhere. There is no reason to believe that Admiral Hoff will be relieved as commander of the squadron in Cuban waters unless at his own request. It is ascertained to-day at the Navy Department, from an authentic source, that the authorities deny that they find any fault with with him on account of his official conduct.

Dispatches received from Mississippi to-day, from State to United States officials and other prominent citizens, say the Republican party would support Judge Lewis Dent for Governor, and his election was certain. Judge Dent authorized the statement that he would accept the nomination. The Convention meets on the 15th.

New York News.

NEW YORK, July 8.—Western Union Telegraph, 47.

William H. Sanford, Cashier of the Tenth National bank of this city, has decamped. He is a defaulter in the sum of $10,000. Speculations in gold led to the defalcation. He leaves a wife and children in destitute circumstances in Westport, Connecticut. The bank announces that the defalcation will not damage its standing.

General Cluseria was discharged to-day, after the examination of several witnesses, with great cheering by a crowd of Cuban recruits present. The traitor French could not be found anywhere. The Government said they had not got through with him.

The National Executive Committee of the Union League held a meeting to-day, to take action in reference to their affairs in Mississippi and Texas.

Miscellaneous.

OTTAWA, July 8.—John Rose, financial minister of Canada, has gone to Washington. He has an appointment with Secretary Fish to-morrow, in reference to a new reciprocity treaty.

HARTFORD, July 8.—The commencement exercises of Trinity College took place to-day.

TOLEDO, July 8.—The first annual regatta of the Northwestern Amateur Association commenced to-day. There were three interesting races. The barge race for the championship of the lakes takes place to-morrow.

HENDERSON, N. Y., July 8.—A sail boat, with sails set, capsized and came ashore to day. No clue to the name of the boat, where from or how many lost has been obtained.

Virginia Politics.

RICHMOND, July 8.—Richard Gilbert Walker arrived this morning from Norfolk. The day was made a holiday for his reception. When the cars arrived 5,000 people congregated at the depot. A committee composed equally of the most prominent white and black citizens was appointed to receive him, but the populace on seeing Walker bore him on their shoulders to a coach ornamented with the national and State flags. A procession which was a mile long marched through the principal streets. Many coaches were in the procession. There were hundreds in the line which were covered with national flags. The band wagon was a transparency with a painting of a white and colored man shaking hands. The streets were blocked with people following the procession. On reaching the house of Col. James R Branch, a Conservative candidate who was killed by a calamity on Friday, the procession passed in silence, with uncovered heads. Upon reaching his hotel, Walker appeared between national and State flags held by whites and negroes. After a few minutes of deafening cheers, he made a brief speech. After congratulating the audience on the complete victory, he said: In this moment of triumph we must not forget charity for the defeated. We must remember that the votes cast against the ticket were cast by deluded, ignorant men of a race that had not had time to be educated sufficiently to know the wrong of disfranchising others. They must remember that we have succeeded on a platform of suffrage and equal rights. We must see that those who opposed us as well as those who supported us have all their rights protected by law. [Loud cheers]. We must not forget that the opportunity for winning this victory was given us through the liberality of President Grant. [Loud cheers]. We must see that its fruits are for the benefit of all. After a jocular allusion to the grief of the present State office holders of the Wells persuasion, the speaker concluded by giving a cheerful picture of the future prosperity of the State. Three cheers were given for President Grant. Walker was then followed by Isaac Hunter (colored), and several white speakers.

The election returns continue more and more favorable to Walker. Returns this morning show that the Walker men will have a majority of 60 on joint ballot, in the Legislature.

Opposition to the Liquor Law in Massachusetts.

BOSTON, July 8.—The Union Republican State Central League is the name of a new political organization, formed to oppose prohibitory legislation.

The *Herald* nominates Charles F. Adams for Governor.

Fire in the Oil Region.

TITUSVILLE, PA., July 8.—About six o'clock this evening a flash of lightning struck Wilk's oil tanks, on Tallman farm, Upper Cherry Run. The tanks contained over 1,000 barrels of oil, which ignited instantly. The tanks burst and the burning oil ran out, burning eight other wells. Three thousand barrels of oil were daily produced from the wells destroyed. It is estimated that 4,000 barrels, worth 30,000, were lost.

Commercial Excursion

CHICAGO, July 8.—The commercial excursion party from this city, arrived at Sherman to day on a trip west They will spend Sunday at Salt Lake.

BY ATLANTIC CABLE.

PARIS, July 8.—A rumor has been current since 10 o'clock this morning that Spain has applied to France, requesting her to advise the United States to preserve a strict neutrality in the case of Cuba, but it is utterly unfounded.

The Santa Clara *Argus* says Democrats have been the best friends to the negroes—they like them. Yes, like the little boy who was once asked if he had any liking for cats. "Oh, yes," he replied, "I like them very much—to throw stones at."

A doting mother of a waggish boy, having bottled a lot of nice preserves, labeled them, "Put up by Mrs D——." Johnny, having discovered them, soon ate the contents of one bottle, and wrote on the bottom of the label, "Put *down* by Johnny D."

THE WEAL.

A new court house and jail are to be built at Olympia.

In many parts of California the peach crop this season is a partial or total failure.

Nine thousand acres of land were disposed of at the Olympia land office during the month of June.

A surveying party led by Beach whose band played so long and loud, has gone to Colville to commence work in that region.

In the new mines in the State of Nevada, about 20 miles from the Idaho line, the prospects are continually improving. Elko is the point of supplies for this district.

The Shasta *Courier* tells about an egg that hatched on its own hook in a manure pile. The chicken raised himself under the disadvantageous circumstances of not being able to identify his parents, and to-day is as fine a rooster as can be found.

The *Pacific* says: Two young men from the Chicago Theological Seminary are expected to enter the Oregon field this fall; one of them, it is supposed, will go to Astoria and one to the Dalles, Rev. Messrs. Grey and Condon entering fields now unoccupied.

The California State Board of Agriculture have decided that the next State Fair shall commence on the 6th of September next, and have appropriated the sum of $12,000 for premiums, and $6,000 for horse races. A pennyworth of bread to an intolerable deal of sack!

Just before the late earthquake was felt on the Sound, the bay was alive with fish of all descriptions. All the fish in the waters were said to come to the surface. Such a multitude of the finny tribes was never seen before.

The Sacramento *Bee*, speaking of the California Democratic platform and its planks, says: "They begin with the Union and Constitution, and end with the Chinese—and a good deal between. If the party can go into the campaign and carry the State on the strength of such a platform, we are very much mistaken."

The San Francisco *Bulletin* observes that the Democracy are beginning to divide on the subject of utilizing Mongolian labor for the advancement of the general interests of a sparsely settled State. Democrats in the South are crowding here for Chinese, some thousands of whom have been engaged, and Democratic farmers in California are obliged to employ them in many instances because they cannot get enough help without them. Democrats in Nevada county united in urging Schnell's Japanese colony to settle among them, and the Democracy of El Dorado, in County Convention Assembled, said not one word in their resolutions about the Mongolian.

GENERAL NEWS ITEMS.

The President has directed the transfer of Coggeshall's full-length portrait of P. T. Lincoln, authorized by the last appropriation act of March last, to be placed in the Executive mansion.

The marriage of Lord Byron's only granddaughter, Lady Anne Isabella Noel King Noel, has just taken place, and she is now Lady Anne Blunt. Her mother was Lord Byron's only daughter, the Ada he loved so passionately.

Hon. Geo. M. Roberson, appointed by the President as Secretary of the Navy, to fill the vacancy occasioned by the resignation of Hon. A. H. Borie, is a son of Judge Wm. P. Roberson, of Warren county, N. J., who was a leading Whig, long and prominently connected with the politics of the State.

One of the agents belonging to the Society of Friends, sent out among the Indians on the Nebraska Reservation states that the Omahas have over 205,000 acres of beautiful rolling prairie land skirted with timber. Oak, walnut, maple, ash, and cottonwood grow along the rivers and streams, of which there are many through the Reservation.

Three years ago the State of Connecticut made an appropriation of $20,000 for the purpose of procuring two statues to be placed on the Capitol at Washington—one of Jonathan Trumbull, the other of Roger Sherman. The commission was given to the sculptor Ives, who is now at Rome. He has completed a plaster cast of the proposed statue of Sherman.

Chronic Alcoholism, it is asserted is becoming a frequent cause for the removal of officers in the United States Army. In the ordinary walks of life, also, "Epidemic Alcoholism" is on the increase, and the high price of genuine spirits having introduced inferior whiskies and brandies, the fatal effects of the morbid taste for liquors are more and more to be observed.

An analysis of the rolls of the British peerage shows that there are 3 peerages of the 13th century, 4 of the 14th, 7 of the

A Salt Lake letter says: This city already ows its bad effects on the offspring. The site [illegible] the level of the sea, a dry [illegible] climate, equally free from extremes heat and cold, and consequently it sh uld be e of the healthiest cities for the world. Exactly reverse is the fact. The death rate of all ages a little more than twice that of the State of Or-n, and greater than that of New York or New leans. When we come to children the disparti is still more frightful. By actual statistics it shown that the mortality among children is eater in Salt Lake City than any other city in erica, except New Orleans, and the death rate Utah is only exceeded by that of Louisiana. e Mormons have greatly exagerated the popu-ion of this place, which really contains a little s than 18,000 souls, and in this small number e sexton's report for October last, the healthiest nth in the year, gives the interments at sixty, which forty-four were children. Last year was usually healthy, and yet the death rate exceeds at of any other State or Territory west of the Mississippi. The Mormons explain this by saying at their people are generally poor and exposed hardships, but much of that poverty is direct-traceable to their religion. Another sad fact the general neglect of medical care, or rather general tendency to run to wild and absurd hemes of doctoring. They claim that the "lay-g on of hands and the prayer of faith" will al the sick, and yet no people within my owledge are so given to "Thompsonianism," steam doctoring," "yarb medicine," and ery other irregular mode of treating the sick. t a few days ago three young children died in e Seventeenth Ward of scarlet fever. In neither se was a physician called; the Bishop came and aid on hands with the holy annointing," and old woman treated two of them with a mild illiative, such as is used for a sore throat. If the patients live after such treatment it is a iracle; and if they die it is "the will of the rd." Two-thirds of the polygamists do not id cannot attend properly to their children. ber C. Kimball had sixty-three sons, of whom ly forty-eight are now living. The Bishop of r ward, the Fourteenth, has thirty children liv-g, and nearly twenty dead. Joseph Smith had lf a dozen spiritual wives; but two sons survive m—both of his legal wife. There are five men in this city who have, to-ther, seventy wives; they have, all told, less a hundred and fifty children. A Mormon graveyard is the most melancholy ght on earth. One bishop here has seventeen WAGES in one row, and the longest grave not over four feet! If the men have but the mmon feelings of humanity, how fearfully they e punished for the crime of polygamy. Brig-m's children are generally healthy, except that eginc nearly have weak eyes, and two of them e nearly blind; but they are well fed, housed d clothed. But such is the exception, and I uld mention a dozen men whose houses are full women, but their children are in the grave.

AN IMMIGRANT AID MOVEMENT.—The following call for a public meeting in this city, is in circulation and numerously signed:

"Impressed with the paramount importance of magnificating a movement to attract the attention of people elsewhere to the advantages which this state offers to settlers and to enterprising people of all classes, with a view of inducing immigration hither, the undersigned would respectfully urge upon the enterprising citizens of Portland, the propriety of holding a public meeting on Saturday evening, the 10th inst., to take this matter into consideration and give the movement a start. The meeting will be held at the Council Chamber at eight o'clock P. M."

There has been an immense amount of talk about the importance of taking steps to induce immigration to this State. Everybody is conscious that our greatest need is population; yet each one has hitherto left the beginning to be made by some one else. Here, now, is an opportunity for an associated effort; the movement has actually started, and all that is now wanted to make it a fruitful success is that all of our public spirited men turn out to the meeting and thereafter give the matter their personal attention and such "material aid," as shall be found necessary. There ought to be a general turn out Saturday evening, and the scheme should be persistently followed out to the desired practical results. No better investment can be made than to put a few hundred dollars into such a scheme.

AGRICULTURAL SCHOOL LANDS.—Mr John F. Miller, who is one of the School Land Commissioners appointed to select the State School Lands, has just returned, says the *Herald*, from a trip to the southeastern part of the State. While on this visit he, with the other two Commissioners, went to the Klamath Lake country, Lost River, Goose Lake, Summer Lake, Clear Lake, Silver Lake, and several other valleys of smaller importance. He is much pleased with that country, and says that he knows of no [illegible] place for a man to emigrate to. Goose Lake is one hundred and twenty miles from the Central Pacific railroad. The wagon road from Goose Lake to the railroad is good, and he thinks goods can be transported for two and a half cents per pound. The finest valley he saw on the trip was that of Summer Lake, which is about equal in extent to Lane county. About ten settlers went into the valley with the Commissioners and [illegible] there. There is in all that country an abundance of water and timber, and the grazing is unrivalled. There are several prospecting parties in that country looking for gold. There are about 500 voters in that section of the State, and Mr. M thinks that by the time the next Legislature meets there will have to be two or three new counties created. The Cgsmissioners selected and located 60,000 acres of school land while they were gone.

A NEW "GOLD BEACH."—Mr. J. A. Crawford, who returned a few days since from Grey's Harbor, Washington Territory, informs us that he found on the beach at Chehalis Point, several men mining for gold. They were sluicing the sand lying above the summer tides, and obtaining fine gold, which they saved by the use of quicksilver. He was not able to learn from them what pay they are making, but he believes from appearances that they are making better than the ordinary wages of the country. Mr. Crawford prospected along the beach at the foot of the hills for some distance, always obtaining "the color," and sometimes a prospect which would seem to justify working if sluices were run by water from the mountain streams. The miners who were at work, were using sea water, and of course labored under many and great disadvantages. He is of the opinion that ditches could be cut, at small cost, so as to supply sluices with water from some of the streams, and that then a considerable number of men might get remunerative pay. The gold is fine, but round and heavy and is worth the highest rates for amalgam gold. The experiment suggested by him might be worth the trial.

ROB. TURNER OF PORTLAND.—Mr. Turner of the *Sentinel*, after returning home from this city, wrote an article on what he saw during his trip through the State, in which he refers flatteringly to our city, in the following terms: "Portland is justly the metropolis of Oregon. Within four years it has grown to be a city. If it assumes city airs with a population of only 10,000, it has a right to do so, and in a few years it will be to Oregon what San Francisco is to California—the center of wealth through all wealth that enters or leaves the State must pass. * * * Prosperous, thrifty, expanding every year, property rapidly increasing in value, magnificent buildings constantly going up, some of them of the most beautiful and expensive style of architecture, that would be a credit to any city in the world. The number of its [illegible] will impress a stranger with a favorable idea of its [illegible] liberality, but observation induces the belief that it is no greater than that of other cities on this coast. Portland is now a port of entry, and an imposing Custom [illegible] will soon be added to the public buildings."

MARION COUNTY TEACHERS' ASSOCIATION.—We have received from Messrs. O. D. Doane, H. Y. Thompson and W. M. Simpson, Executive Committee, the following circular:

"We beg leave to call your attention to the Semi-[illegible] meeting of the Marion County Teachers' Association, which will be held in Salem; the [illegible] commences on Tuesday, July 27th, 1869. All Members are requested to attend, and a cordial invitation is extended to all Teachers and friends of the Educational interests of the county to be present and participate in the exercises. [illegible] are especially requested to prepare essays, [illegible], or other literary exercises, and to report the same to the Executive Committee at the beginning of the [illegible]. The programme of topics for discussion will be [illegible] during the session to meet the wishes of the [illegible]. The Committee will provide accommodations for all in attendance, and no pains will be spared to make the approaching session an interesting and profitable one."

CIRCUIT COURT—UPTON, JUDGE.—Proceedings of yesterday:

Martin Mosley vs. John Doole—verdict of $26 13-100 for plaintiff.

John Catlin, Assignee, vs. J. J. Allen—motion to strike out part of replication; sustained.

J. W. Cook, A. Beck, D. Simon and E. A. Hawley, sheriffs [illegible], from further attendance at the present term of Court.

Wm. Wilson, vs. Al. Zeiber, Sheriff—dismissed without prejudice, on payment of costs accrued to date.

Buck vs. D. Wittenberg—action to foreclose mechanic's lien; verdict of jury, $100 in currency in favor of plaintiff.

The case of Wm. Oliver vs. the N. P. T. Co., suit for $25,000 damages, set for trial this morning.

PORTLAND LIBRARY.—The following new books have just been added to the Portland Library: Home Pictures of English Poets; Oldtown Folks, by Mrs. H. B. Stowe; Letters to the Joneses, by Holland; My Recollections of Lord Byron; Men, Women and Ghosts, by Phelps; Narratives and Adventures of Travelers in Africa; Story of a Trooper; Bitter Sweet, by Holland; Biographical Sketches, by Martineau; Weems' Life of Marion; Out of the Street, by Gayler; The Changed Brides, by Mrs. Southworth; Doctor Austin's Guests, by Gilbert; [illegible] Elan, by Trollope; Irish Odes and other Poems, by DeVere; Travels in Alaska and on the Yukon; Sermons on the Failure of Protestantism; How He Won Her, by Mrs. Southworth.

UP THE COAST.—A day or two since we met with a party of three or four young men of this city who were [illegible] to start on an excursion to the coast, where they propose to fish, hunt and recreate for two or three weeks. They had a small sail boat in which they intended to take their provisions, cooking utensils, tent, fishing and hunting tackle, and to sail whenever and in whatever direction they choose, and thus to be at home wherever they might chance to make fast. We hear of other parties who are going in just such a way. Where recreation and sea air are the objects sought, we can think of no better plan.

THE NEW POSTOFFICE.—The postoffice is now established in the brick building, corner Alder and First streets. The interior arrangements seem to be much more convenient and pleasant than in the old place. Mr. Wheeler has fitted up three hundred and forty-eight boxes of the ordinary size and thirty-two large size, the latter for the accommodation of parties who receive large mails. Our postoffice now presents a more metropolitan as well as creditable appearance, than ever before.

SHORT.—The clerk of the weather, old mother Nature and all the rest of the family, have been hard at work the last few days, coloring their meerschaums. At least, we may well suspect so, from the terribly smoky condition of the atmosphere. The air out of doors is about as bad as it could be in a seven by nine bar room containing a baker's dozen of veteran topers each puffing with might and main at a nine weeks old dudheen. Or, if not so bad as that, it is bad enough.

ANOTHER REGATTA.—We are informed that the sailing regatta of the 5th inst. is likely to be followed by another, soon. It seems that the excitement then awakened, together with a belief on the part of many of the contestants that they had not a fair show in the former race, has led to the general desire to form a club and to have another trial, in which all shall sail to rule.

FOR SITKA.—The steamship *Fidalgo*, Capt White, sailed at 4 o'clock yesterday afternoon for Sitka, having on board, Major Gen Geo. H. Thomas and his staff officers, Cols. Hough, Willard, Ludington and Kellogg, who are en route to Alaska on a tour of inspection. Surgeon R. J. Baily, ordered to Alaska, as Medical Director of the Department, was also a passenger.

A NEW STEAMSHIP COMING.—The *Commercial* says: "We learn through an exchange, that a new side-wheel [illegible] was launched at a ship yard in New York a few days since, which is intended for the Pacific coast trade. She is owned by Capt Geo. S. Wright, and is 650 tons burthen."

I. O. O. F.—The following is a list of officers installed in Willamette Encampment No. 2, I O O F, at Salem, for the current term: A Bachman, C P; J W Miller, H. P.; J. N Matheny, S. W.; J. Q Wilson, Scribe; A B. Cooper, Treas., and J. D Jordan, J W.

ON THE MOVE.—Nearly all day yesterday, parties of Chinamen who have been living out at the rancharie on King's creek, were coming into town loaded with baggage and "household gods." They are doubtless on the move for the East Side railroad.

AT SALEM.—Rev. Mr Hilliery, of the African M. E. Zion church of this city, has gone to Salem, and will lecture at the M. E. church of that city this evening.

GOING TO BUY A NEW DRESS.—The *Herald* says one of the objects of Mr. Patterson's visit to San Francisco, is to purchase a new dress for their newspaper.

RAIN.—There was a slight sprinkle of rain last evening with indications of a continuance. The temperature of the air went down very sensibly.

BEING NORTH STAR.—This vessel was hauled up to the wharf of the Pioneer Line yesterday morning, where she commenced discharging cargo.

GEORGE FRANCIS TRAIN.—The New York [illegible] of June 8th, thus alludes to this eccentric genius:

Mr Train, Fenian eccentric, as he is called, keeps his eye on the main chance. He burns for distinction, loves to be talked of, contrives to have the newspapers advertise him gratis, talks and travels, but never forgets, however, extending his time table, that the most important train to him is Train No. 1. He was an early and serviceable if not an indispensable spoke in the machinery of the Union Pacific Railroad. He took his pay in cash, making the Union Pacific, E. D., do the disbursing. Strange as it appeared to all who knew that hide-bound corporation, he got from them $80,000 cash, and has them in law for $300,000 more. We expect to get from Mr. Train, or some other source, the curious particulars of the negotiations which preceded such payment and suit. They will make an interesting contribution to the early history of Pacific Railroad.

The First Hebrew Benevolent Society of Portland Oregon, will hold its regular meeting on Sunday, July 11th, at half after 1 P. M., at the Turn Verein Hall.

d2t ISAAC N WALTER, Sec'y.

ATTENTION WASHINGTON GUARD.—A meeting of your Company will be held this evening at 8 o'clock. A punctual attendance is requested.

By order of the Captain. S V FULLER, O S.

YACHTMEN ATTENTION.—A meeting will be held in Buckle's rooms at 8 o'clock this evening for the purpose of organizing a Yacht Club to promote the popular amusement of sailing and for general consultation and election of permanent officers. All interested persons, whether owners of boats or not, are requested to be present promptly.

GEO F BOWMAN, Secretary.

LADIES—Clarke, Henderson & Cook received, per steamer *Pacific*, a few more of those beautiful Organdie Lawns; also, white Marseilles and Piques.

EVERY DAY, at No. 107 Front street, one door above McCormick's, you can see KANE'S CONDENSED SOAP wash *without rubbing*.

ONE HUNDRED DOLLARS REWARD.—A chance to make one hundred dollars! We notice that W. C. Avery, the celebrated trance speaker and rope tier, will give one of his wonderful exhibitions of power to tie and untie himself. He ties himself in such a way that he gives any one the sum of *one hundred* dollars who will untie him. He performs without the aid of spirits.

Performance on Tuesday night, July 6th, at Oro Fino Theater. Doors open at 7½ o'clock; performance at 8½ o'clock. Front seats reserved for ladies. Admission, 50 cents; reserved seats, 75 cents.

THE DAY fixed to commence work on the East Side Railroad is July 1st. By that time the Company will have sufficient Railroad Iron on the way or in Portland to complete twenty miles of road. Workmen without employment should be patient for the Company will give employment to a thousand men, at good wages, and of course KOHN & FISHEL will continue to sell the very best clothing in that time at remarkably low figures.

That "*Train*" passing through our city has indeed created an excitement. He claims to be on his way to the *White*house. Irishmen claim him as their Patriot Englishmen *don't* claim him at all, and Kohn & Fishel claim to have the largest, best and finest stock of clothing and Gents' Furnishing Goods in the city, and undoubtedly can give sufficient proof that they are selling lower than any other house in Oregon.

"LIFE SAVINGS AND LOAN BANK."—The people of the city patronize the OREGON DISPENSARY in order to save money and procure a loan of longer life by using our FRESH, PURE and RELIABLE remedies, which are daily dispensed and preferred by the MOST RESPECTABLE and TALENTED PHYSICIANS in this city. Everybody takes a pull in patronizing our Store and thereby obtain DIVIDENDS by purchasing not only their medicines but also their toilet articles and other *sctar*, too numerous to mention. People say it is a pleasure to get sick and be cured at the Oregon Dispensary.

Its Policies are Negotiable.

By the Charter of the Company, certificates of obligations will be issued, agreeing to purchase its Policies at their value when, when accompanied by the Policy duly assigned or transferred, are negotiable, and may be used as collateral security, in making loans from the Company or from other parties.

The Hon. Jno. E. Sandford, Insurance Commissioner of Massachusetts, in his Report for 1868, speaking of Dividends in Life Insurance Companies, says: "The sooner such guarantees cease to be made, and such expectations created, the sooner Life Insurance will come to rest on its true motives, and men insure their lives for security, and not for dividends. The best and most popular companies will then be those that promise only equity, and render all that they promise, and furnish the best security, with the most upright and judicious management."

"By the Stock plan, the full cash effect of the Premium is immediately secured to the Insured, the Company taking ALL the risk. By the Mutual plan, the full value in Insurance of the Premium paid, is not secured to the Policy-holder, who takes a portion of the risk himself."

By the Charter of the Company, certificates of obligations will be issued, agreeing to purchase its Policies at their value when, when accompanied by the Policy duly assigned or transferred, are negotiable, and may be used as collateral security, in making loans from the Company or from other parties.

The Hon. Jno. E. Sandford, Insurance Commissioner of Massachusetts, in his Report for 1868, speaking of Dividends in Life Insurance Companies, says: "The sooner such guarantees cease to be made, and such expectations created, the sooner Life Insurance will come to rest on its true motives, and men insure their lives for security, and not for dividends. The best and most popular companies will then be those that promise only equity, and render all that they promise, and furnish the best security, with the most upright and judicious management."

"By the Stock plan, the full cash effect of the Premium is immediately secured to the Insured, the Company taking ALL the risk. By the Mutual plan, the full value in Insurance of the Premium paid, is not secured to the Policy-holder, who takes a portion of the risk himself."

RIDAY MORNING JULY 9, 1869

The Next Census.

e Census Committee are at work in ington, and steps are being taken to re- all possible correctness and completeness king the census next year. Some new ulties will arise, prominent among which be that effected by the Fourteenth Amend- on representation. This matter has made a subject of careful examination e Committee. The primary object of the census is to make the required al- ent for representation in Congress. This legal purpose, and all other details, gh matter of interest to the historian and stician, and also of great value as furn- ng information for the basis of taxation, of secondary importance. The Four- th Amendment provides, among other gs, that when the right to vote at any ion for the choice of Electors for Presi- and Vice-President, Representatives in gress, &c., is denied to any of the male bitants of a State, being twenty-one years ge, and citizens of the United States, or ny way abridged, except for participating ebellion or other crimes, the basis of rep- ntation therein shall be reduced in the portion which the number of such male s shall bear to the whole number of e citizens twenty-one years of age in such te. Under the operation of this amend- t, the committee will necessarily have to rtain what States exclude any portion of r citizens from the right to vote for causes er than participation in the rebellion or . It must ascertain how many citizens excluded in Connecticut by the educa- al qualification, and how many in Rhode nd by the provisions of the Constitution that State. It is thought that Rhode nd will lose one Representative, Kentucky bably two, New York one, and so on in er States. If the Fifteenth Amendment ll have been ratified before the taking of ensus, it will of course alter the com- ion of the case in some of the States. committee, after a consideration of the ole subject, and after an affirmative verbal pinion that the Attorney-General, came to conclusion that it was incumbent on m to make pro- For ascertaining the mber of voters in the various St tes where ey were in the habit of voting made ars ago, out of the whole number ale citizens twenty-one years of age, the fact which the qualification or ion of citizens. Constitutional ndment may have on the subject. The is of the opinion that the Four- nth Amendment will affect the apportion- t. It must, of course, be altered, and it ld not at the designated figure for the xt ten years. It will be observed that ex- pts as to the colored population, which will be counted for the purposes of apportion- ent hereafter just according to the ite ion rule as formerly, the basis of rep- ntation in the late slave States is not good, but the , although some of the ite in the rebellion do not vote, they ll be present, and go to swell the figures are to be made.

This Year.

If Democracy anywhere is in a more be- ted condition than in the State of Ohio body can tell where that place is! Look at Every part of it is stale, rotten and utterly ridiculous. Most of it ld be quite as true to the condition the Democracy the flood as the require- t of their times. Republican success in e last election leaves the opposition nothing for, and they can only grope blind- ly trying to hold of. It will be e ruin of the Republicans themselves if they not overthrow this fall. The succes- of Lieutenant-Grant's Administration, es- ially in foreign matters, makes the Re- ublicans certain of the State, as they were in e last contest; and if they do not succeed it ill be because they are not worth while to put forth an effort to win.

Democratic Logic.

"Democracy" gives expression to some ngular views. The Cincinnati *Dispatch* de- ares that the Democratic party, in order to gratify unholy spirit of revenge, have pro- claimed the political equality of all men." y a way to pay a spirit of revenge!

The San Francisco *Union* continues its fear- ss protests against the suicidal policy adopt- d by the Central Pacific railroad. It says at ultimately the control of the Central ecedily falls into the hands of enlarged busi- ess views the Union Company will monopo- ize the whole trade even as far as Nevada. he Central, says the *Union*, is now virtually ruining the country and its trade, and just s surely operating so that the future interests f the railway

Politics This Year.

An election is soon to come off in Californ- a, and Senator Casserly and Governor aight are in the field venting their spleen on n unoffending Chinaman. They did the ame thing just before the election two years go; but immediately after the election they tended Chinese banquets and dined and ined with the "moon-eyed heathen" in high yle. This is Democracy; abuse the Chinese efore the election and *tete-a-tete* with them fter the election, at the Chinaman's expense.

The English Government has completed a survey of all the telegraph lines in that country and will at once use them as a part of its postal system. An Eastern exchange re- marks: "We are not clear in our opinion as to the utility of this action, nor as to the wisdom of adopting it in this country. But it is worth remembering that Great Britain has led the nations in all postal reforms, and her statesmen may be proven to have been as wise in this as in some of the other radical changes which preceded it. If so, this coun- try may again follow her example."

The New York *Tribune*, in a brief article on Senator Casserly's utterly foolish and dema- gogical speech against the Chinese, makes the following center shot: "We sincerely trust that those who have migrated hither from the Old World, and been freely admit- ted to every right and privilege of citizenship will not combine to exclude *those who do not want to vote*, asking only to be allowed to work." The difference between Casserly and the Chinese is that he came to this country across one ocean while they came across the other. When it comes to the question of *right*, isn't their right to be here just as good as his?

Two years ago the Democrats of California offered the nomination for Governor to Gen. Conness, but he declined, and made several strong Republican speeches. He has now nominated by the Democrats of Ohio for Governor of that State. No doubt he will accept this nomination, as his animosity to- wards Gen. Grant is very bitter. Democrats are learning that it is no use for them to nominate any man who was connected with their party during the war. Gen Rosecrans, however, will find that the same fate is in store for him which overwhelms every soldier who dishonors his record by going to that party. There was a little instance of this kind in Washington Territory about a month ago.

A letter from Boise City states that goods from Chicago are arriving at that place. The current of treasure that once flowed through Portland and afterwards directly to San Fran- cisco has now started East at the rate of $150,- 000 to $200,000 per month. Cattle and sheep are the only products from Oregon that now find sale at good prices at Boise City. Had there been any enterprise in San Francisco the trade of Idaho might have been secured permanently to that city. It is only about 200 miles from Boise City to the Pacific rail- road; but the grit and greenbacks of Chicago have beaten the coin and cowardice of San Francisco. Almost the whole treasure pro- duct of the Pacific slope, east of the Sierra Nevada mountains is being diverted from San Francisco and is taking the direct route by rail- road to Eastern cities. It is this which is telling so heavily against the metropolis of the Pacific coast.

The *Herald*, we notice, publishes from the San Francisco *Call* a statement that at a din- ner recently given in that city ex-Senator Wade said to Mayor McCoppin, who is an Irishman by birth: "Why shouldn't the Chi- nese come here and have all rights and privi- leges? They are a d—d sight better than the Irish." The *Call* says that "McCoppin had too much respect for his guest to resent this brutal insult, but rose and left the table." Other San Francisco papers say that there are just as many falsehoods as lines in this state- ment. Wade simply said that the Chinese ought to have the right to come here, and that they are as good a class of laborers as any. McCoppin was not offended at all by his remarks and did not leave the table. The *Call's* statement is one of those lies which the Democratic press is continually manufactur- ing to array one class of people against another for partisan ends.

The colored people of San Francisco re- fused to participate in the national celebration with the Copperhead element of the city. At a colored men's meeting called to consider the subject, Cooke, one of the speakers, said: "The time is coming, fellow countrymen, when we will have access to the ballot-box, and when the public schools will be thrown open to our children. Why should we not send our children to the public schools as well as the whites? But do not mistake me in this. Do not imagine that because my child went to school with a poor white boy I would allow him to associate with that white boy at home. [Immense applause.] No, gentlemen and ladies; although we want perfect equality, still our self-respect must be maintained." A distinguished light of De- mocracy in California regards this as one of the hardest hits of the season. We think that when our colored fellow citizens vote, as they are certain to do in our next election, they will be able to guard their children effect- ually against demoralization by social equality.

Letter from Boise City.

BOISE CITY, July 2d, 1869.

EDITOR OREGONIAN:

Allow me this time to discourse of "nothing in particular," and

THINGS IN GENERAL.

For the past two weeks the Payette hills have been furnishing us with smoke enough to enable *us to dispense with "Olive" and "Pride of Vir- ginia."* Whether the firing of the hills was in- tentional or accidental, I am unable to say. To what extent the stock range will be injured re- mains to be seen. The fire, however, has one great crime to answer for—that *of driving the* grasshoppers into Boise valley. Had it not been for this fire we would have escaped a plague that has, for years past, been more or less injurious, not only to the farmers, but the Territory at large. This year, so I am informed, the grass- hoppers have destroyed the entire crops in the Payette valley. This is a beautiful valley, very fruitful in its productions, and would be an honor to any Territory or State. The fire may have been set by *some farmer, in hopes of destroying* the deposits of eggs that have been laid this sum- mer, and thus prevent another curse from visiting them. Although the fire may have the effect of checking them, it is really sad to witness the *losses which our farmers are now subject to.* A farmer, residing about five miles below here and who had about three hundred acres of the finest grain which he had already commenced to har- vest, lost about one-fourth of it night before last, and last night he expected the committee of the *whole to rise, report progress, and ask leave to* harvest the whole crop for him. They (the grass- hoppers) are paying considerable attention to gar- dens in the outskirts of town, and the damages done by them will be heavy and irreparable. A few days longer and our general harvest will com- mence, unless we are saved the trouble, which is quite probable. Such a visitation is one that can be realized only by those who have seen it. A short account of them at this time may not be amiss. In appearance they are not unlike the grasshoppers that visit nearly every clime. They are capable of sustaining themselves in the air while traveling a distance of fifteen miles. I never followed one, but have been so informed. You will see the air thick with them, while at your feet it appears that thousands are alighting. If in a grain field they will crawl to where the head of grain joins the stock, and in less time than it takes to write this, they will have it cut off. I have noticed many advertisements of pre- mium reapers and mowers in my time, but for expeditious work in a harvest field give me the grasshopper. A few days more and we can de- termine whether they will pursue their way to Eastern Oregon or stop amongst us until the pen- itentiary is fairly under way.

Speaking of the penitentiary reminds me that Commissioners appointed to select a site for the assay office have met and are awaiting the action of our citizens in the premises. Considerable ri- valry is being manifested by "Up Town" and "Down Town," in regard to the location. There is one source of satisfaction, however, to our citi- zens: the Commissioners cannot, were they to try, find any but a level and desirable place, fit for any public building in the United States, such is the natural advantage possessed by Boise City. *The erection of the assay office will cause* much better times here, and, in fact, all over the Terri- tory. The Commissioners are Hon. John Mc- Bride and L. F. Cartee. One Walker was also appointed, but has not arrived.

Some time last week a fight occurred between a surveying party and a band of Indians, on Bruneau river, east or southeast of Silver City. The party, I understand, was under the superin- tendence of a person by the name of Bell. The whites sought shelter behind rocks, and fought it out on that line all day. At night they retreated, taking with them a wounded companion, who was shot during the day, leaving "L" monarch of all he *surveyed*. The wounded man was brought to the ferry at Snake river, where he still remains. How dangerous his wound is I am unable to learn. I give you all I can learn in regard to it. In a few months it will appear in our Tri weekly, and then you will know less about it than you do now.

The peace and quiet of our little town was dis- turbed this morning by signs ominous, but unin- telligible. A huge placard was posted on every corner, bearing the following: "7 (cut of a clown's head) P. M. 3d (picture of a squaw) *ditch* X (portrait of an unreconstructed Ku Klux, with a bottle of whisky in his hand). Alley Don't (cuts of two large hearses, two roosters, two small hearses) Fail. Mogul. [US]" The near ap- proach of the Fourth of July makes *me* rest easy, but *the editor of the Try weekly has gone to* the mountains for his health. Some say that he was not hungry enough to eat his breakfast before leaving. Plug-Uglies, I suppose. C.

Senator Carl Schurz, of Missouri, endorses Sen- ator Brownlow's letter in favor of the removal of the political disqualifications of the late rebels.

DISPATCHES TO THE OREGONIAN

DATES TO JULY 8.

Washington News.

WASHINGTON, July 7.—The Secretary of the Treasury has decided that all Notary and At- torneys' papers to be used before the Department shall be received in every case, notwithstanding that the name of such Notary be already filed in the Department as duly certified, for although his name be filed in one bureau it will require time and labor for the heads of Bureaus to ascer- tain the fact.

The health of Secretary Rawlings has greatly improved lately. He says he is now better than for four years.

CHICAGO, July 8.—The *Times'* special says the *National Intelligencer* will resume publication. A card is published in the city papers warning all parties against adopting that name for any newspaper.

Free Trade Meeting in Buffalo.

BUFFALO, July 7.—A large number of citizens held a meeting last night for the purpose of form- ing a free trade league. Appropriate resolutions were adopted. A committee on permanent or- ganization was appointed to report at a subse- quent meeting.

The *Republican's* special says that Daniels, Chairman of the Conservative State Convention of Virginia, has telegraphed the President con- gratulating him on the election of Walker. Some suppose his dispatch a parcel of impudence, as both candidates claim to be true Republicans and supporters of the administration. There is no reason to doubt his gratulation as sincere. Segar elected Congressman at large, will never obtain his seat, Virginia not being entitled to such an officer. The Walker party talk of electing Alex. Sharp, the President's brother-in-law, formerly Postmaster at Richmond, now Marshal of the Dis- trict of Columbia, as Senator. He is a Republican of moderate tendency.

Miscellaneous.

PROVIDENCE, R. I., July 8.—The Niagara Falls has been selected as the next place of meeting of Ninth Army Corps.

NEW YORK, July 8.—The Eckfords beat the Havards in a game of base ball yesterday. Score —17 to 5.

CINCINNATI, July 8.—Henry Eastman and Chas. Cannon were arrested yesterday. Burglars' tools and $3,000 identified as taken from the Govern- ment Collector's office at Hamilton on Saturday, were found on their persons.

The Hamilton county delegation express dis- satisfaction at the nomination of General Rose- crans.

BOSTON, July 8.—The annual convention of op- erative plasterers of North America assembled yes- terday. Chas. McLean was elected President for the ensuing year, together with a full set of offi- cers. The Secretaries have made all the desirable preparations for entertaining their representa- tives.

CHICAGO, July 8.—A *Tribune's* New York spe- cial says the Cubans have formed plots to kill Henry French, the spy who testified to details of the late expedition before Marshal Barlow.

A petition is being prepared for circulation among naval officers asking Secretary Roberson to order the original names of ships, changed by the late Secretary, to be restored.

Gen. Butler has filed an inventory stating the property left by his brother, A. J. Butler, was $76,000 in New York, and $100,000 in Massa- chusetts and California.

The District Attorney has preferred charges against several leading Wall street operators for violation of usury laws. The cases will be brought *before the Grand Jury. An effort will also be made* to punish the parties concerned in several recent financial schemes of doubtful honesty.

PARIS, July 8.—A rumor has been current in Spain, that some Americans have applied to France requesting her to advise the Government of the United States to preserve strict neutrality in the case of Cuba, but it is entirely unfounded.

Notwithstanding the official denial, a modifica- tion of the French Ministry is imminent. Rhouer, representing the system of personal government, will surely retire and give place to a new combi- nation in accord with the principle of Parlia- mentary government. When this purely consti- tutional revolution is effected, it may be consid- ered almost certain that M. Olivia will be chief of the new Ministry. The Emperor says he is will- ing to abandon the arbitrary power which he has wielded since the *coup d'etat*, and share the bur- *den of government with the country and Legis-* lature. The Senate will soon assemble to carry out the necessary organic changes.

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, June 8.—The fruit growers and dealers of California met in Convention yes- terday. The question of shipping fruits to the Eastern markets was discussed. A fruit growers' association was organized.

The committee appointed to investigate the charges against the Industrial School was in ses- sion yesterday afternoon. Mr. Howe, of the *Bul- letin*, testified to the sources from whence he re- ceived his information contained in the article published in that paper. Mrs. Davis, testified to what she heard while matron of the school. Her testimony was all hearsay, and therefore will *amount to nothing. The Committee are now* holding another session.

The Pioneers' Society elected the following offi- cers last night: President (opposition), Richard Chenery; Vice Presidents, Charles D. Carter, Jas. Lick (both on each ticket), Nicholas Larco John B. Frisbie and A. Stearns. Secretary, Louis R. Lull; Treasurer, Howard Havens; Marshal, William Huewr.

A Chinese vegetable peddler was assaulted by a gang of boys last evening on Mason street. His eyesight was nearly destroyed by cayenne pepper thrown by the young scoundrels. No arrests.

A Chinaman was knocked down on Dupont street yesterday by a butcher, but instead of flee- ing he retaliated and gave the butcher a severe beating, in which he was backed and supported by a large crowd of spectators.

The journeymen bakers are out with a petition for the reduction of their hours of labor from 12 and 14 hours, and sometimes 18 hours per day, to ten hours. They say they have to work every night and on Sundays and holidays. They re- ceive from $2 50 to $4 per day. What they ask is ten hours and no Sunday work.

The Aereal Steam Navigation Co. being well satisfied with their recent experiment, intend to commence the construction of a larger machine for carrying passengers.

Hon. Wm. H. Seward visited the Industrial School, Almshouse and hospitals, to day.

The Golden City leaves this port for Panama, to day.

NEVADA.

VIRGINIA, July 8.—Heavy cool winds have pre- vailed all day, making it very unpleasant and disagreeable.

Piper's Opera House is closed until times get livelier.

The Gold Hill *News says of the present depres-* sion in stocks, our mines are looking a little too well to justify it and there necessarily has to be a strong reaction, and very shortly, too.

The counties of Lyon and Storey have com- menced suit against Washoe county, Nevada, to establish jurisdiction over the town of Wadsworth, in Washoe county. The taxes on the railroad property in Wadsworth is the bone of contention.

The Sultan of Turkey has conferred the title of Pasha upon Sir Samuel Baker in recognition of his humane gallantry in assuming the guidance of the expedition to exterminate the slave traffic on the White Nile, dispatched by the Viceroy of Egypt at the instance of the Prince of Wales. "Baker Pasha," is a title that sounds strange in Anglo Saxon ears, but the mode in which it has been earned is stranger still.

Mr. Boutwell's system of retrenchment is most searching in its details. The Government is to be saved a million dollars annually by lopping off the superabundant clerkships which have been fastened on the Collectors and Assessors of Inter- nal Revenue. The Johnson Conservative-rebel movement was so frantic for patronage as to in- crease the working force of the subordinate posi- tions far beyond what was actually needed. The pruning-hook of economy and good management is timely, and contrast sharpens its edge.

OREGON.

The farmers in Jackson county are busily en- gaged in harvesting. Crops will be light, oats particularly so.

The *Unionist* opposes the "method of monopoli- zing the public lands" by grants to companies for enterprises of doubtful utility to the country.

The Polk county *Times* fiercely assails Beriah Brown, calls him a sorehead, an agitator a dis- organizer, and says that if the Democracy are to be troubled with such fellows they may as well turow up the sponge.

The Jacksonville *Sentinel* states that William Harriot has commenced work in his wing dam on Applegate, near Steamboat City. In sinking the pump during the present week, $150 was taken from the bottom of the hole, only about five feet square. The water is so low that a very favor- able and profitable season is expected.

From the Jacksonville *Sentinel* Messrs. Dil- lon & Bowden cleaned up last week, after crush- ing about seventy tons of quartz. The exact re- sult is not made public, but the proprietors of the vein are in good spirits, and say that they got more than good working prospects. They will push work again vigorously, and will soon have a good face on the mine.

The *Unionist* says: The Pioneer Oil Company during the time they have been shut down, have constructed several vats for rotting flax straw, so that it may be scutched and otherwise prepared for market. The mill is just now finishing grind- ing the old seed. The Company will commence using the flax seed of this year's crop in about ten days, when they will run on long time. The drought has affected the flax crop this year, in the same way it has grain. That which was sown early will be good, while the late planting will be short.

GENERAL NEWS ITEMS.

A New York organ firm is filling an order for an instrument to go to Yokahama. It will be the first organ ever heard in Japan.

Anna Dickinson is said to be worth one hun- dred thousand dollars. If she is correct in her opinion that in ten years she will be in Congress, she will be able to purchase quite a cosy little establishment in which to entertain her "brother Reps."

The Convention of the Southern States to en- courage Chinese immigration will meet at Mem- phis *on the 13th of the present month.* It will be composed of delegates from all parts of the South. The principal Chinese importer at San Francisco will attend by special invitation. Isn't it about time for the Anti-Chinese howlers on the Pacific slope to go into some other business?

The New Orleans *Times* complains that A. H. Stephens seems to imagine that he has a mission to perform in croaking over the destiny of this country. It thinks his views are colored by a bad stomach and failing health, and tells him that he *pays the American people a poor compliment* when he sets himself up as an inspired prophet to point for them such a wretched, hopeless future.

Chief Justice Chase deems it no infringement upon his judicial functions to be recognized as a politician as well as a judge. And he seems quite as anxious to have the good opinion of those who make Presidents, as he is to deliver judicial opin- ions upon Constitutional law. The Democratic leaders succeeded in shaking him off in '68, but it is doubtful whether they will be equally success- ful in '72. He has both wind and bottom for a long chase.

NOTICE.

PORTLAND, OREGON, July 1, 1869

MR. S. D. SMITH takes this method of notifying his friends and the Traveling Public that he has again taken the WESTERN HOTEL, associating with him MAJ. COOK, and will in future endeavor to keep it in First Class style. It is their intention to commence at once Repairing, Refitting and newly Furnishing the House throughout, making it second to none in the State. Give us a call and satisfy yourselves that what we say is true.
